

dental.care@62 can offer

■ **SMILE ANALYSIS:** What are your problems and what do you want? We will advise you honestly if these are achievable.

■ **ORTHODONTICS:** For adults and children (our oldest patient was 73!) using fixed braces, either see-through or conventional brackets, Invisalign The Hollywood, almost invisible tooth alignment using state-of-the-art removable aligners.

■ **FUNCTIONAL APPLIANCES:** Extensively used in Europe and the USA, utilising natural growth patterns to align the jaws and teeth, creating a better bite and facial profile.

■ **TOOTH WHITENING:** Using both Australian and American techniques we can whiten individual teeth, or all of them, in just one hour. For lasting results we recommend a combination of in-surgery and home tray systems.

■ **ADVANCED DENTAL CARE:** With the use of aesthetic tooth build-up using teeth-coloured materials or just good basic dental care and hygiene, we can restore your trust and get your mouth back to where it should be. In addition to conventional crowns, we can also offer highly aesthetic all-porcelain crowns from Sweden.

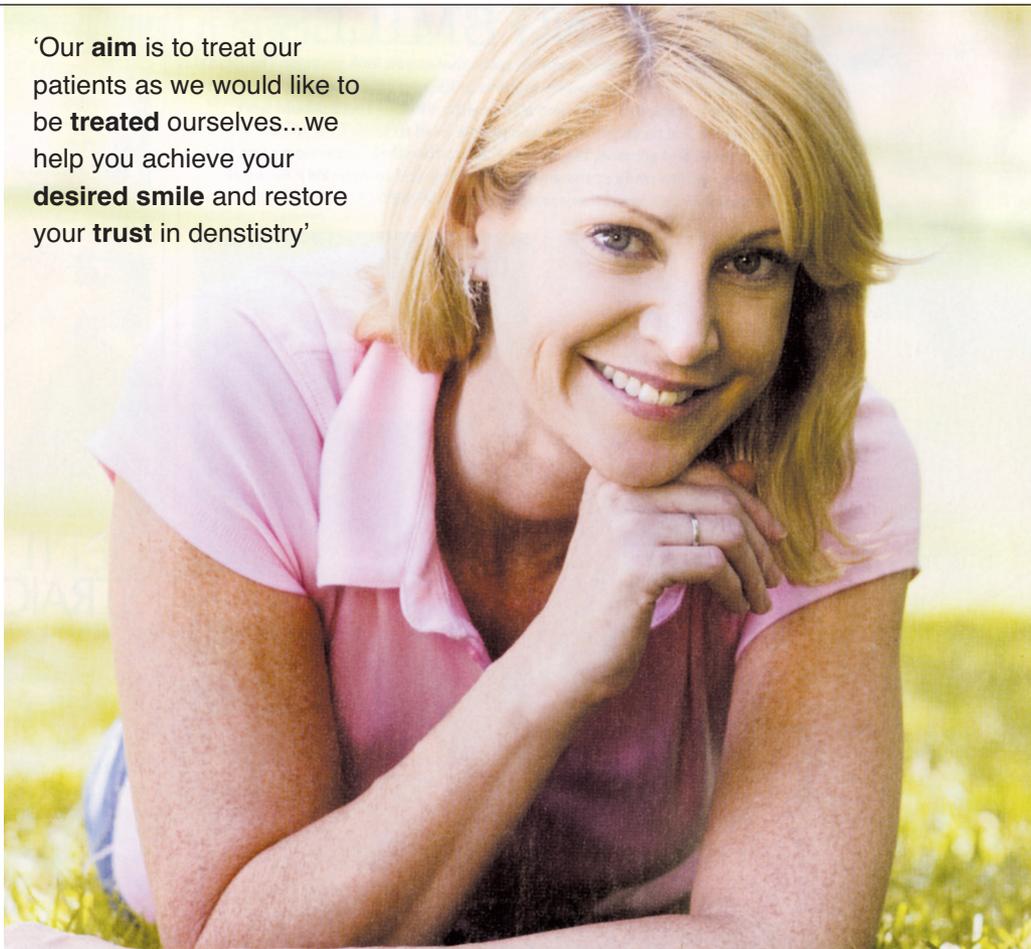

■ **OZONE THERAPY:** HealOzone from KaVo. Injection-free treatment of early decay and immediate tooth desensitisation from Germany.

■ **DENTAL PHOBICS:** With time, consideration and understanding, and not forgetting a cappuccino, music and possibly medication, we can help you relax during your treatment.

■ **BOTOX (VISTABEL):** For the reduction of frown lines and eye wrinkles. We have been examined and accredited by Vistabel.

**Dental.care@62 offers you the best treatments from around the world, hand-crafted by British hands, at a price you can afford.**

# MARPLE SMILES

**To help patients achieve their dream smile. Dr Duncan Harrop principal dentist at dental.care@62 combines state-of-the-art orthodontic and aesthetic dentistry with an all-round holistic approach to treatment.**

With more than 30 years of experience in his German and British practices, Dr Duncan Harrop concentrates on treating his patients with an all-round holistic approach. For the patient this means being treated by a single practitioner who sees the whole picture rather than being sent from one

specialist to another, with all the inherent communication problems that method of treatment can involve. "Our aim is to treat our patients as we would like to be treated ourselves," explains Dr Harrop. "Frequently, patients' problems arise from a dental phobia and poor treatment techniques when

they were younger. This usually means two things: the problems were not sorted out in the first place and this patient is now at best anxious and often very nervous about seeking and undergoing treatment. Through a comprehensive and relaxed consultation followed by a caring gentle approach during treatment, we help you achieve your desired smile and restore your trust in dentistry and dental treatment.

To remedy our patients' problems, we prefer to whiten, aesthetically enhance or align teeth with orthodontics before resorting to cutting down the natural dentition for crowns, though we acknowledge that this may occasionally be necessary to achieve a perfect smile."
